OBJECTIVE

Recent Electronics Engineering graduate and Full Stack Developer with 6+ months of experience building scalable web applications using Spring Boot, React.js, and MySQL. Passionate about modern software engineering and cloud-based architectures, eager to develop efficient, user-focused solutions within a dynamic, technology-driven organization.

EDUCATION

North Maharashtra University

Aug 2022 - July 2025

B.E. in Electronics and Telecommunication (CGPA: 7.24 / 10.0)

Courses: VLSI, Operating System, Networking, Java Programming

MSBTE University

Nov 2019 - Feb 2022

Diploma in Electronics and Telecommunication (Percentage: 79.65 / 100.0)

Courses: Basic Electronics, Embedded C, Electronics Design

EXPERIENCE

Full Stack Developer (On-Site)

June 2025 - Present

TRON Softech Pvt Ltd

- Built XEEPL ERP with Spring Boot, React, and MySQL, boosting efficiency by 35% and cutting errors by 50%.
- Collaborated in agile sprints with designers, QA, and managers, ensuring 100% on-time delivery and team alignment.
- Resolved 15+ backend and UI issues, boosting deployment speed by 20% and enhancing overall system stability.

Java Full Stack Trainee

February 2025 - June 2025

Vinsys IT Services

- Received comprehensive training in Java technologies including Spring Boot and React, learning software engineering concepts through practical, real-world applications.
- Completed CSFR program certification with Generation India, gaining hands-on Full Stack Developer skills and successfully developed the NextGen exam portal project as a final capstone project.

PROJECTS

XEEPL ERP Project

GitHub

Technologies: Java Spring Boot, React, JPA, MySQL, Vite

- Built ERP modules using Spring Boot, React, JWT, and MySQL for secure, scalable enterprise automation.
- Developed REST APIs, RBAC, and real-time PDF/catalog export to streamline business operations.
- Delivered file upload/download features and dynamic data tables for inventory and content.

NextGen Online Exam Assessment Platform

GitHub

Technologies: Java Spring Boot, Angular, JWT, MySQL

- Developed examination platform with secure JWT authentication and role-based access control.
- Debugged authentication/session issues and conducted end-to-end testing for bug-free deployments.
- Automated reporting and enhanced dashboard UX with robust API-driven workflows.

ResumeForge - Professional Resume Creator

Live Demo

Technologies: React, Vite, html2canvas, jsPDF

- Multi-Step Guided Form: Intuitive 5-step process to collect Personal Info, Education, Experience, and Skills.
- Live Preview & PDF Export: Real-time rendering with high-quality PDF download using html2canvas and jsPDF.
- Features: Template selection, Dark/Light mode, Data persistence (localStorage), and Mobile-first responsive design.

SKILLS

Programming: Java, JavaScript (ES6+), TypeScript, PHP, SQL

Frameworks: Spring Boot, React.js, React Native, Hibernate, JPA, Spring MVC, Microservices

Tools: Docker, Git, GitHub, Postman, AWS, IntelliJ IDEA, Eclipse, Maven, Vite

Concepts: RESTful APIs, Agile Development, SDLC, Unit Testing (JUnit), API Integration, Authentication (JWT)

AI & Automation: Prompt Engineering, LangChain, n8n, OpenAI API, Google Gemini, LLM Integration

ACHIEVEMENTS

- Finalist in Smart India Hackathon (SSBT College): Contributed to an innovative full-stack solution.
- Led Youth Festival 2K23 & 2K24: Successfully coordinated 3 activities for 200+ participants.
- Active GitHub profile with 34 repositories; earned "Pull Shark" and "Quickdraw" community badges.
